PROFILE

I am a learner and enthusiastic web developer with over 3+ years of experience and 5+ years of educational learning. I thrive in dynamic environments, leveraging my expertise to create innovative and user-centric digital solutions. Committed to staying at the forefront of industry trends, I consistently seek new challenges to expand my skill set and contribute to impactful projects.

WORK EXPERIENCE

Web developer

Zoetrone Studios (<http://zoetrone.com/>)

2020-2022

- Successfully revamped the company website ZoetroneStudios, aligning it with modern web standards upon joining.
- Independently developed several prominent Bangladeshi company websites, including Mentors and Insignia BD, from inception using WordPress, PHP,SQL and Javascript.
- Showcased versatility by contributing to the creation of the mobile app "Partex Door" using Unity and C#, effectively leveraging my skills in app development.

Customer service

Xoss Gadgets (<https://www.daraz.com.bd/shop/xoss/>)

2020-2022

- Joined this ecommerce business as a side hustle beside my full time job to gain firsthand experience in the business world and develop skills in customer handling and operations while maintaining a full-time job.
- Successfully managed a wide range of responsibilities, including conducting SEO activities to enhance the company's online presence, handling customer queries, effectively resolving complaints, and ensuring seamless order management.
- Developed a comprehensive understanding of customer needs and preferences, honing my abilities in problem-solving, multitasking, and maintaining a high level of customer satisfaction.

Junior web developer

eTech Bangla (<http://etechbangla.com/>)

2018-2019

- I commenced my journey as an intern, acquiring valuable skills in SEO optimization, Google Analytics, and utilizing WP Engine for backend hosting.
- Expanded my skill set through proficiency in graphics designing using Adobe Photoshop and Illustrator, as well as video editing using Filmora and Adobe tools.
- Demonstrated versatility by developing websites, including the company website eTechBangla and CommonerWeb using HTML,CSS,AJAX,JSON.
- Proactively built small software solutions, such as a Python-based web scraper, to streamline work processes and enhance productivity.

MANAGEMENT & LEADERSHIP EXPERIENCE

Team Leader for postgrad final project

- Served as Scrum Master, facilitating agile project management.
- Assigned responsibilities to team members and maintained clear communication.
- Presented project updates to professors and maintained client communication.
- Ensured understanding of product requirements and addressed client feedback.

Team Leader for Undergrad final project

- Led and organized team efforts, assigning responsibilities and coordinating project development.
- Presented project progress to professors, showcasing effective communication skills.
- Organized and facilitated team meetings, promoting collaboration and productivity.
- Proficient in project management methodologies, ensuring efficient workflow.

Student Representative

- Acted as a liaison between students and administration, ensuring effective communication and resolving issues.
- Scheduled additional lectures for the class, facilitating enhanced learning opportunities.
- Assisted the faculty advisor in various duties, contributing to the smooth functioning of academic activities.
- Provided support to students, addressing their concerns and assisting them with any problems that arose.

Organizer

- Organized the EPL 2017 cricket game between departments of our university, showcasing strong organizational skills and event management capabilities.
- Active member of the local student community during high school, leading the organization of various programs and events centered around school initiatives.

EXPERTISE

- Web Development: Proficient in HTML, CSS, JavaScript (including jQuery), JSON, and Bootstrap. Skilled in developing dynamic and interactive web pages using AJAX and Vue.js. Experienced in building web applications with frameworks like Flask, Django, and Laravel.
 - Programming Languages: Strong knowledge of C#, C, C++, and Python, enabling efficient and effective coding for web development projects.
 - Software Development Methodologies: Well-versed in Agile Development and Scrum methodologies, ensuring streamlined and collaborative project execution. Familiar with MVC architecture and Waterfall methodology for structured development processes.
 - Database Management: Competent in working with databases, including MySQL and SQLite3, for efficient data storage and retrieval in web applications.
 - Content Management Systems: Proficient in utilizing WordPress to create and manage dynamic website content.
 - Version Control and Collaboration: Skilled in using Git for version control and facilitating seamless collaboration with development teams.
 - Additional Skills: Experience in responsive design, UX/UI principles, testing and debugging, performance optimization, security implementation, and API integration.
-
